Subjects and Titles

Note: Page numbers preceded by E indicate online only articles; those preceded by S indicate material found in the supplement.

A

Aberdeen Back Pain Scale, responsiveness in low back pain, 71
Acupuncture, for low back pain, patient expectations and treatment effects of, 1418
ADCON-L, spontaneous postoperative cerebrospinal fluid leaks following application of, 748
Adolescents
  back pain reporting pattern in Danish population-based sample of children and adolescents, 1879
  idiopathic scoliosis in. *See* Scoliosis, idiopathic
  lumbar disc excision in, 1997
  significance of high lumbar mobility and low lumbar strength for current and future low back pain in, 2629
Age. *See also* Adolescents; Elderly people; Pediatric patients
  age differences in distribution of bone content in third lumbar vertebra, 964
  challenges facing older workers, 1306
  correlation between age at pinealectomy and development of scoliosis in chickens, 1014
  effect on outcomes of tertiary rehabilitation for chronic disabling spinal disorders, 1378
Aging. *See also* Elderly people
  of intervertebral discs, apoptosis of endplate chondrocytes and, 2414
  mechanisms of age-related decline in insulin-like growth factor-I dependent proteoglycan synthesis in cells of, in rat, 2421
Allodynia, repeated injury to lumbar nerve roots produces enhanced mechanical allodynia and persistent spinal neuroinflammation, 2073
Amicar, efficacy in reducing blood loss during complex adult reconstructive spine surgery, 1152
ϵ-Aminocaproic acid, effect on perioperative blood loss in patients with idiopathic scoliosis undergoing posterior spinal fusion, 1147
Amputation, giant intrasacral cellular schwannoma treated with high sacral amputation, E216
Amyotrophy, cervical spondylotic amyotrophy with intramedullary cavity formation, E220
Anal dilatation, *Bacteroides fragilis* vertebral osteomyelitis secondary to, E377
Anesthesia
  effects of isoflurane versus nicardipine on blood flow of lumbar paraspinal muscles during controlled hypotension for spinal surgery, 105
  posterior fusion with wave-shaped rod under local anesthesia for cervical spondylotic myelopathy, 2334
Aneurysmal bone cysts, of mobile spine, 27
Aneurysms, contained rupture of aneurysm of common iliac artery associated with pyogenic vertebral spondylitis, E303
Ankylosing spondylitis
  flexion osteotomy of cervical spine for correction of iatrogenic extension deformity in, 1068
  transpedicular wedge osteotomy for correction of thoracolumbar kyphosis in, E354
Antifibrinolytics, efficacy in reducing blood loss during complex adult reconstructive spine surgery, 1152
Anulus fibrosus
  effect on nerve root conduction velocity, 1651
  glycosaminoglycan accumulation in primary culture of, in rabbit, 2653
  peak stresses observed in posterior lateral anulus, 1753
  side of symptomatic annular tear and site of low back pain, E165
  tears of, concentric, mechanical and pathologic consequences of, in ovine model, 2575
  in vitro torsion-induced stress distribution changes in, in porcine model, 2582
Aorta, contained rupture of aneurysm of common iliac artery associated with pyogenic vertebral spondylitis, E303
Apex
  fusion of, submuscular Isola rod with or without limited apical fusion in management of severe spinal deformities in young children, 2044
  transverse apex coinciding with coronal apex levels in idiopathic scoliosis, 1143
Apoptosis
  of disc cells in herniated lumbar disc tissue, Fas ligand expression and, 618
  of endplate chondrocytes, relationship to aging and degeneration of intervertebral discs, 2414
Aprotinin, efficacy in reducing blood loss during complex adult reconstructive spine surgery, 1152
Arachnoid cysts, magnetic resonance imaging of, 2757
Arachnoiditis, toxoplasmic, associated with osteoid formation, 1726
Arthrodesis
  failed, vascularized fibular grafts as salvage procedure for, 2171
  following interbody spinal fusion, criteria of, 320
  for intractable sacroiliitis in spondyloarthropathy, 2297
  occipitocervical arthrodesis in children using autologous rib grafts, 825
  rate in multilevel anterior cervical fusions using autogenous fibula, 1259
ASIA impairment scale, in acute spinal cord injury, S68
Åstrand bicycle test, reliability in chronic low back pain, 771
Athletics. *See* Sports
Atlantoaxial joint
  posterior C1-C2 fusion with polyaxial screw and rod fixation, 2467
  traumatic atlantoaxial dislocation injury, 454
  traumatic rotatory dislocation of, with odontoid fracture, 830
Atlanto-occipital joint, dislocation of, transarticular screw fixation for, 703
Atlas
  fibrocartilage in transverse ligament of, 1765
  foramen magnum syndrome secondary to calcium pyrophosphate crystal deposition in transverse ligament of, 1396
  hypoplasia of, cervical myelopathy and congenital stenosis from, E80
Axis
  fractures of posterior part of body and unilateral spinous process of, E528
  pedicle and pars interarticularis location in, E34
Axons
  primary sensory neurons with dichotomizing axons projecting to the facet joint and the sciatic nerve in rats, 1105
  regeneration of, in spinal cord, S13

B

Back pain. *See also* Low back pain
  Boeing prospective study of, 1613
  disc herniation-related back pain impairing feed-forward control of paraspinal muscles, E367
  impact of physical function and pain on work status at 1-year follow-up, 800
  Internet information about, nature and quality of, 545
  media campaign effects on beliefs about, 2535
  preventive interventions for, 778
  reporting pattern for, in Danish population-based sample of children and adolescents, 1879
  self-management booklet for, 2065
  visual analog scales for interpretation of back and leg pain intensity in patients operated for degenerative lumbar spine disorders, 2375
Bacteroides fragilis, vertebral osteomyelitis secondary to anal dilatation, E377
Beliefs
  about back pain, media campaign effects on, 2535
  comparison of fear-avoidance beliefs in patients with lumbar spine pain and cervical spine pain, 2139
Benzel scale, in acute spinal cord injury, S68
Biering-Sørensen test, reliability in chronic low back pain, 771
Biomechanics
  acute biomechanical and histologic effects of intradiscal electrothermal therapy on human lumbar discs, 2198
  anterolateral cage insertion for stabilization of functional spinal unit, 2491
  bioactive bone cement as principle fixture for spinal burst fracture, biomechanical and morphologic study of, 2684
  biomechanical and morphologic evaluation of three-dimensional fabric sheep artificial intervertebral discs, 1562
  canal and intervertebral foramen encroachments of thoracolumbar burst fractures, effects from center of rotation, 1231
  comparison of anterior and transverse fusion cages, E261
  comparison of cervical spine interbody fusion cages, 1850
  comparison of modern anterior and posterior plate fixation of cervical spine, 15
  comparison of posterior cervical fixation techniques, 1662
  comparison of sheep and human cervical spines, anatomic, radiographic, bone mineral density, and biomechanical study of, 1028
  cortical shell architecture of cervical vertebral bodies, 2478
  effect of anterior osteophytes and flexural position on thoracic trabecular strain, 22
  effect of frozen storage on creep behavior of human intervertebral discs, 883
  effect of nucleotomy on lumbar spine mechanics in compression and shear loading, 2080
  effects of progressive anterior cervical decompression, 6
  electromyographic reflex responses to mechanical force, manually assisted spinal manipulative therapy, 1117
  endplate conditions and bone mineral density effects on compressive strength of graft-endplate interface in anterior cervical spine fusion, 951
  evaluation of anterior spinal instrumentation systems for scoliosis, *in vitro* fatigue simulation and, 2701
  evaluation of diagonal fixation in pedicle screw instrumentation, 2498
  evaluation of load sharing and stiffness in dynamic cervical plates, 1324
  evaluation of stand-alone interbody fusion cages in cervical spine, E432
  ex vivo evaluation of hydroxyapatite cement for use with vertebroplasty, 1542
  ex vivo evaluation of inflatable bone tamp used in treatment of compression fracture, 151
  factors influencing nuclear disruption of intervertebral discs, 1223
  finite element investigation of upper cervical instrumentation, 2449

head restraint properties and response to rear-end impacts, 2432
hook pattern and kyphotic angulation effects on mechanical strength and apical rod strain in long-segment posterior construct using synthetic model, 627
impaired postural control of lumbar spine associated with delayed muscle response times with chronic idiopathic low back pain, 724
influence of follower load on intradiscal pressure and intersegmental rotation of lumbar spine, E557
interface strength between titanium mesh cage and vertebra in reference to vertebral bone mineral density, 957
intradiscal solid phase displacement as determinant of centripetal fluid shift in loaded intervertebral disc, E174
lifting strategy and stability in strength-impaired elders, 731
load-sharing between anterior and posterior elements in lumbar motion segment implanted with an artificial disc, E122
load sharing within human lumbar vertebral body using finite element method, E253
mechanical response to axial compression load *in vivo*, E403
morphological changes in lumbar intervertebral foramen due to flexion-extension, lateral bending, and axial rotation, 876
notch sensitivity of titanium alloy, commercially pure titanium, and stainless steel spinal implants, 1668
osteoporosis changes amount of vertebral trabecular bone at risk of fracture but not vertebral load distribution, 1555
peak stresses observed in posterior lateral anulus, 1753
pedicle screw adjustments affecting stability of thoracolumbar burst fractures, 2328
prediction of mechanical behaviors at interfaces between bone and two interbody cages of lumbar spine segments, 1437
qualitative changes in spinal canal dimensions using interbody distraction for spondylolisthesis, E13
simulation of physiologic loading conditions by applying pure moments, 636
of slippage mechanism in spondylolysis, in pediatric patients, study using immature calf spines, 2208
S1 screw bending moment with posterior spinal instrumentation across lumbosacral junction after unilateral iliac crest harvest, 1950
of vertebroplasty, effect of cement volume on mechanical behavior, 1537
in vitro genesis of subaxial cervical unilateral facet dislocation through sequential soft tissue ablation, 1317
in vitro torsion-induced stress distribution changes in, in porcine model, 2582
Bipedalism, comparison between bipedal and quadripedal rats, E308
Bladder function, after spinal cord injury, S129, S161
Bleeding disorders, transfusion medicine management for reconstructive spinal repair in von Willebrand's disease, E552
Blood flow
effects of isoflurane versus nicardipine on blood flow of lumbar paraspinal muscles during controlled hypotension for spinal surgery, 105
lidocaine effects on blood flow and endoneurial fluid pressure in rat model of herniated nucleus pulposus, 2186
Blood loss
ε-aminocaproic acid effect on perioperative blood loss in patients with idiopathic scoliosis undergoing posterior spinal fusion, 1147
efficacy of antifibrinolytics in reducing during complex adult reconstructive spine surgery, 1152
Bone cement
bioactive bone cement as principle fixture for spinal burst fracture, 2684
ex vivo biomechanical evaluation of hydroxyapatite cement for use with vertebroplasty, 1542
Bone cysts
aneurysmal, of mobile spine, 27
simple bone cyst of lamina of lumbar spine, E531
Bone grafting
bone graft incorporation in radiographically successful intervertebral body fusion cages, 2744
efficacy of direct current stimulation for lumbar intertransverse process fusions in animal model, 1002
modified technique for harvesting full-thickness iliac crest bone graft, 695
natural history of posterior iliac crest bone graft donation for spinal surgery, 1473
occipitocervical arthrodesis in children using autologous rib grafts, 825
osteogenic protein-1 as graft substitute for intertransverse process lumbar fusion, 127
rhOP-1 for, comparison with allograft and hydroxyapatite, for lumbar interbody fusion in sheep, 469
transpedicular, late results of thoracolumbar fractures after posterior instrumentation and, 88
vascularized fibular grafts as salvage procedure for failed arthrodesis, 2171
Bone mineral density
comparison between sheep and human cervical spines, anatomic, radiographic, bone mineral density, and biomechanical study of, 1028
endplate conditions and bone mineral density effects on compressive strength of graft-endplate interface in anterior cervical spine fusion, 951
gender and age differences in distribution of bone content in third lumbar vertebra, 964
interface strength between titanium mesh cage and vertebra in reference to vertebral bone mineral density, 957
relative roles of iatrogenic polymorphisms of vitamin D receptor gene in degeneration and bone density in lumbar spine, E7
Bone morphogenetic protein
carriers for spinal fusion, 850, 933
laparoscopic anterior lumbar interbody fusion with rhBMP-2, 2751
Bone response, hydroxyapatite coating to improve bone-screw interface, 2673
Bone tamps, *ex vivo* evaluation of inflatable bone tamp used in treatment of compression fracture, 151
Book review, Frontiers in Whiplash Trauma, Clinical and Biomechanical (Yoganandan and Pintar), 2515
Bracing
effectiveness in male patients with idiopathic scoliosis, 2001
effect on incidence of surgery for adolescent idiopathic scoliosis, 42
factors influencing outcome in bracing large curves in patients with adolescent idiopathic scoliosis, 2354
nighttime bracing with Providence brace in adolescent girls with idiopathic scoliosis, 2006
for scoliosis, surgical treatment compared with, radiologic findings and curve progression 22 years after treatment, 516
Brain microembolization, patient foramen ovale and, during scoliosis surgery, 1719
Bupivacaine, intraoperative, postoperative narcotic requirement after microscopic lumbar discectomy, 658

C

Calcification, recurrent calcified spinal meningioma detected by plain radiograph, E249
Calcinosis, tumoral, 1673
Calcitonin gene-related peptide, phenotypic inflammation switch in rats shown by calcitonin gene-related peptide immunoreactive dorsal root ganglions innervating lumbar facet joints, 1009
Calcium phosphate bone substitute, augmentation of anterior vertebral body screw fixation by injectable, biodegradable calcium phosphate bone substitute, 2679
Calcium pyrophosphate crystal deposition, in transverse ligament of atlas, foramen magnum syndrome secondary to, 1396
Carcinoid tumor, of coccyx, 2165
Cartilage-derived retinoic acid-sensitive protein, in cerebrospinal fluid from patients with spinal diseases, 157
Cathepsin, localization of cathepsins D, K, and L in degenerated discs, 2666
Cauda equina syndrome
lumbar, association with Gelfoam use, E485
as postoperative complication of surgery for lumbar disc herniation, 293
secondary to idiopathic spinal epidural lipomatosis, 307
Cavernous malformations, intramedullary, in children, E427
Centroid method
for analysis of lumbar lordosis, E235
reliability for analysis of thoracic kyphosis, E227
Cerebral palsy, scoliosis and severe pelvic obliquity in, 2168
Cerebrospinal fluid
analysis of cartilage-derived retinoic acid-sensitive protein in cerebrospinal fluid from patients with spinal diseases, 157
dynamic physiologic changes in lumbar CSF volume quantitatively measured by three-dimensional fast spin-echo MRI, 1172
spontaneous postoperative cerebrospinal fluid leaks following application of anti-adhesion barrier gel, 748
Cervical spine. *See also* Neck *entries*
accuracy of cervical pedicle screw placement using funnel technique, 2456
anterior cervical corpectomy and fusion using miniplate and screws in 4-year-old child with eosinophilic granuloma of, 1193
biomechanical comparison of cervical spine interbody fusion cages, 1850
biomechanical effects of progressive anterior cervical decompression, 6
biomechanical evaluation of load sharing and stiffness in dynamic cervical plates, 1324
biomechanical evaluation of stand-alone interbody fusion cages in, E432
cervical disc prothesis, E90
cervical myelopathy and congenital stenosis from hypoplasia of atlas, E80
cervical spondylotic amyotrophy with intramedullary cavity formation, E220
characteristics of velocity-controlled knee movement with cervical compression myelopathy, E535
comparison between sheep and human cervical spines, anatomic, radiographic, bone mineral density, and biomechanical study of, 1028
comparison of fear-avoidance beliefs in patients with lumbar spine pain and cervical spine pain, 2139
comparison of modern anterior and posterior plate fixation of cervical spine, 15
comparison of three screw types for unicortical fixation in lateral mass of, 2427
correlation between magnetic resonance imaging and electrophysiological findings in cervical spondylotic myelopathy, E294
correlation between operative outcomes of cervical compression myelopathy and MRI of spinal cord, 1238
correlation of positive Hoffmann's reflex with cervical pathology in asymptomatic individuals, 67
cortical shell architecture of cervical vertebral bodies, 2478
delayed effects of migrated foreign body in, 578

development of system for *in vitro* neck muscle force replication in whole cervical spine experiments, 2214
disc herniation in
immunohistochemical examination and measurement of nitric oxide production, 1110
intradural, 698
disc prolapse in, irreducible dislocations of cervical spine with prolapsed disc, 1927
dislocations of, irreducible dislocations of cervical spine with prolapsed disc, treatment technique for, 1927
dynamic radiographs of, characteristics of sagittal vertebral alignment in flexion determined by, 256
early complications of high-dose methylprednisolone sodium succinate treatment in follow-up of acute cervical spinal cord injury, 426
en plaque meningioma of, unusual appearance of, E87
extensor musculature of, morphological evaluation by coronal view of magnetic resonance imaging after laminoplasty, 2220
facet joints of, sensory innervation in rats, 147
fibrocartilage in transverse ligament of atlas, 1765
finite element investigation of upper cervical instrumentation, 2449
fixation in, comparison of posterior techniques for, 1662
flexion myelopathy after valproic acid overdose, E459
flexion osteotomy of, new technique for correction of iatrogenic extension deformity in ankylosing spondylitis, 1068
fracture of, acute respiratory compromise associated with flexed cervical traction after C2 fractures, E50
fusion in
anterior cervical corpectomy and fusion using miniplate and screws in -year-old child with eosinophilic granuloma of cervical spine, 1193
arthrodesis rate in multilevel anterior cervical fusions using autogenous fibula, 1259
bilateral phrenic nerve palsy as complication of anterior decompression and fusion for cervical ossification of posterior longitudinal ligament, E281
endplate conditions and bone mineral density effects on compressive strength of graft-endplate interface in anterior cervical spine fusion, 951
increased fusion rates with cervical plating for three-level anterior cervical discectomy and fusion, 643
interbody, nonautologous interbody fusion materials for, 689
laminoplasty *versus* laminectomy and fusion for multilevel cervical myelopathy, 1330
posterior C1-C2 fusion with polyaxial screw and rod fixation, 2467
posterior fusion with wave-shaped rod under local anesthesia for cervical spondylotic myelopathy, 2334
tandem interbody fusion grafting after cervical vertebretectomy, 1287
hypertrophy of posterior longitudinal ligament as prodromal condition to ossification, myelopathy and, 110
interobserver and intraobserver reliability of Japanese Orthopaedic Association scoring system for evaluation of cervical compression myelopathy, 1890
isolated juvenile xanthogranuloma in, 1392
laminoplasty *versus* laminectomy and fusion for multilevel cervical myelopathy, 1330
long-term results of anterior floating method for cervical myelopathy caused by ossification of posterior longitudinal ligament, 241
long-term results of double-door laminoplasty for stenotic myelopathy in, 479
magnetic resonance imaging analysis of soft tissue disruption after flexion-distraction injuries of subaxial cervical spine, 1866
maximal *versus* feigned active cervical motion in healthy patients, 1680
mechanical evidence of cervical facet capsule injury during whiplash, 2095
myelopathy of, imaging/clinical correlations and, 2411
neurologic deterioration after acute spinal cord injury in, cause of, 340
new anterior cervical instrumentation system combining intradiscal cage with integrated plate, 1188
open *versus* closed halo rings, comparison of fixation strengths, 20f
oral extrusion of screw after anterior cervical spine plating, 1814
ossification of posterior longitudinal ligament in, identification on preoperative computed tomographic examinations, 182
osteomyelitis in, multilevel, Zenker's diverticulum associated with, E193
prognostic value of Quebec Classification of whiplash-associated disorders, 36
range of motion discriminates between asymptomatic persons and those with whiplash, 2090
recurrent laryngeal nerve injury with anterior cervical spine surgery, risk with laterality of surgical approach, 1337
relationship between outcomes of conservative treatment and magnetic resonance imaging findings in mild cervical myelopathy caused by soft disc herniation, 1592
return to play after cervical spine injury, 1131
roentgenographic findings in asymptomatic persons, 2463
stab wound of spinal cord, 444
stenosis of, sports-related cervical cord neurapraxia in children and, 2709
subtotal corpectomy *versus* laminoplasty for multilevel cervical spondylotic myelopathy, 1443
three-dimensional computed tomography-based personalized drill guide for posterior cervical stabilization at C1-C2, 1343
Torg-Pavlov ratio in cervical spondylotic myelopathy, 1760
traction methods to correct severe deformity in rheumatoid arthritis, 1076
transoral resection and reconstruction for primary osteogenic sarcoma of second cervical vertebra, 1936
trauma to, masking of vertebral artery dissection by, 314
ventral discectomy with PMMA interbody fusion for disc disease in, 249
in vitro genesis of subaxial cervical unilateral facet dislocation through sequential soft tissue ablation, 1317
in vivo changes in neuroforaminal size at flexion-extension and axial rotation of the cervical spine in healthy persons examined using kinematic magnetic resonance imaging, E287
whiplash injury of. *See* Whiplash injury
Cervical Spine Research Society
keynote address, Cervical Myelopathy: Imaging/Clinical Correlations and the Application of Evolving Magnetic Resonance Imaging Techniques in Cervical Spinal Cord Abnormalities, 2411
methylprednisolone for acute traumatic spinal cord injury, questionnaire survey of views of delegates at European CSRS on, E562
presidential address, Working Together, We Can Achieve Greatness!, 2409
Cervicothoracic spine, spinal-thoracic dumbbell meningioma, 1500
Chemonucleolysis, with papain or collagenase, 1835
Childbearing, 22 years after treatment for idiopathic scoliosis, 1449
Children. *See* Pediatric patients
Chondrocytes, of endplate, apoptosis of, relationship to aging and degeneration of intervertebral discs, 2414
Chondroitinase ABC, effects on intradiscal pressure in sleep, 463
Chondroitin sulfate, glycosaminoglycan accumulation in primary culture of intervertebral disc cells in rabbit and, 2653
Cineradiography, for continuous dynamic-motion analysis of lumbar spine, 1858
Clinical guidelines
for general practitioners' management of low back pain, in non-English-speaking country, 2727
for low back pain management in primary care, international comparison of, 2504
Cobb angles
for analysis of lumbar lordosis, E235
reliability for analysis of thoracic kyphosis, E227
in scoliosis, E55
Coccydynia, comparison of three manual treatments for, E479
Collagenase, chemonucleolysis with, 1835
Collagen type 2, premature ossification of endplates and mild disc degeneration after inactivation of allele of Col2a1 gene, 2558
Compartment syndrome, prevention in dorsal root ganglia caused by exposure to nucleus pulposus, 870
Compression fractures, *ex vivo* evaluation of inflatable bone tamp used in treatment of, 151
Computed tomography (CT)
diagnostic effect of axial loading during CT with degenerative disorders, 2607
three-dimensional computed tomography-based personalized drill guide for posterior cervical stabilization at C1-C2, 1343
whiplash injury determination with, 2443
Contamination, environmental and body contamination through aerosols produced by high-speed cutters in lumbar spine surgery, 2156
Corpectomy
anterior cervical corpectomy and fusion using miniplate and screws in -year-old child with eosinophilic granuloma of cervical spine, 1193
subtotal corpectomy *versus* laminoplasty for multilevel cervical spondylotic myelopathy, 1443
thoracolumbar, anterior, image-guided, 1197
Cost-effectiveness
of evidence-based guidelines for low back pain management in primary care, 2615
of periradicular infiltration for sciatica, 2587
Cranioplasty, previous, epidural abscess with, intracranial penetration by halo pins and, E463
Cri-du-chat syndrome, scoliosis in, 835
Cryomicrotomy, whiplash injury determination with, 2443
Cutters, environmental and body contamination through aerosols produced by high-speed cutters in lumbar spine surgery, 2156
Cysts
aneurysmal, of bone, of mobile spine, 27
arachnoid, magnetic resonance imaging of, 2757
bone, simple bone cyst of lamina of lumbar spine, E531
hydatid, pelvic, primary, sciatica and foot drop with, 230
juxtafacet, lumbar, patient outcome after resection of, 969
sacral, cyst-subarachnoid shunt for, 451
synovial, myelopathy induced by a thoracic intraspinal synovial cyst, E392

D

Deformity. *See also* Kyphosis; Scoliosis
in adults, reconstructive surgery for, lung injury during, 387
efficacy of antifibrinolytics in reducing blood loss during complex adult reconstructive spine surgery, 1152
flexion osteotomy of cervical spine for correction of iatrogenic extension deformity in ankylosing spondylitis, 1068
immunophenotypic analysis of inflammatory infiltrates in herniated intervertebral discs, 1209

long-term complications in adult spinal deformity patients having combined surgery, comparison of primary to revision patients, 973
management of fixed sagittal plane deformity, results of transpedicular wedge resection osteotomy, 2036
multiple osteotomies in treatment of rigid adult spine deformities, 526
one-stage posterior hemivertebra resection and correction using segmental posterior instrumentation, 752
parenteral hyperalimentation for long fusions with spinal deformity, complications and recovery from postoperative malnutrition related to, 809
post-traumatic, S111
prediction of progression of spinal deformity in Duchenne muscular dystrophy, E223
preoperative gait comparisons between adults undergoing long spinal deformity fusion surgery and controls, 2020
safety of thoracic pedicle screw fixation in spinal deformities, 2049
spinal deformity and myelopathy associated with syringomyelia following spinal cord injury, S128
string test measurement to assess effect of spinal deformity correction on spinal canal length, 2013
submuscular Isola rod with or without limited apical fusion in management of severe spinal deformities in young children, 2044
traction to correct severe cervical deformity in rheumatoid arthritis, 1076
Demineralized bone matrix
dose-dependent toxicity of, 1429
risk associated with, 1409
safety of, 1425

cauda equina syndrome in, association with Gelfoam use, E485
cineradiography for continuous dynamic-motion analysis of, 1858
comparative evaluation of single-level closing-wedge vertebral osteotomies for the correction of fixed kyphotic deformity of lumbar spine, 2385
comparison of fear-avoidance beliefs in patients with lumbar spine pain and cervical spine pain, 2139
cross-cultural adaptation of lumbar North American Spine Society questionnaire for Italian-speaking patients with lumbar spinal disease, E344
diagnostic performance of vertebral displacement measurements derived from ultrasonic indentation in *in vivo* model of degenerative disc disease, 1348
in diastrophic dysplasia, clinical and magnetic resonance imaging analysis of, 187
disc excision in children and adolescents, 1997
disc herniation in
cauda equina syndrome as postoperative complication of surgery for, 293
clinical features of extraforaminal herniation based on radiographic location of dorsal root ganglion, 662
conservative versus operative treatment for, 601
disc height and signal intensity of nucleus pulposus on magnetic resonance imaging as indicators of, 680
facet trophism compared in far lateral and posterolateral lumbar disc herniation, 677
Fas ligand expression and apoptosis of disc cells in herniated lumbar disc tissue and, 618
Fas receptor expression on disc cells in herniated lumbar disc tissue, 142
histochemical changes in multifidus muscle with, 622
long-term outcomes of standard discectomy for, 652
lumbosacral scoliotic list by, 667
postoperative magnetic resonance imaging of, comparison of microendoscopic discectomy and Love's method, 1599
quantitative analysis of transforming growth factor-beta 1 in ligamentum flavum of lumbar spinal stenosis and disc herniation, E492
recurrent, results of operative management of, 672
relation between vertebral endplate shape and lumbar disc herniations, 2133
surgery for, during pregnancy, 440
surgical and nonsurgical management of sciatica secondary to, 1187
types of herniated disc and clinical course, 648
dynamic physiologic changes in lumbar CSF volume quantitatively measured by three-dimensional fast spin-echo MRI, 1172
effect of frozen storage on creep behavior of human intervertebral discs, 883
effect of isoflurane versus nicardipine on blood flow of lumbar paraspinal muscles during controlled hypotension for spinal surgery, 105
effect of nucleotomy on mechanics in compression and shear loading, 2080
environmental and body contamination through aerosols produced by high-speed cutters in lumbar spine surgery, 2156
facet joints of
dorsal capsule of, immunohistochemical study of, E338
pigmented villonodular synovitis of, as cause of nerve root entrapment, E213
fracture kyphosis of, evaluation of intraobserver, interobserver, and technique variability in measurement of, 61
fusion in
comparison between anterior and transverse fusion cages, E261
comparison of lumbar spine fusion using mixed and cloned marrow cells, 2305
efficacy of direct current stimulation for intertransverse process fusions in animal model, 1002
flexibility analysis of posterolateral fusions in New Zealand white rabbit model, 1125
intertransverse process, osteogenic protein-1 as graft substitute for, 127
lumbar sagittal alignment after fusion with threaded interbody cage, 1137
nonsurgical treatment *versus*, 2521
osteogenic protein-1 ability to overcome nicotine's inhibitory effect on, 1656
pedicle fracture after instrumented posterolateral fusion, 580
posterolateral, outcomes in patients receiving Workers' compensation, 738
smoking as predictor of negative outcome in, 2623
surgical treatment of adjacent instability after, E519
gender and age differences in distribution of bone content in third lumbar vertebra, 964
greenstick lamina fractures in, dural tears in burst fractures and, E410
impaired postural control of lumbar spine associated with delayed muscle response times with chronic idiopathic low back pain, 724
influence of follower load on intradiscal pressure and intersegmental rotation of, E557
influences of nonspecific low back pain on three-dimensional lumbar spine kinematics in locomotion, 1910
interbody fusion in
anterior, endoscopically assisted minilaparotomy for, E1
comparison of posterior and transforaminal approaches to, 567
paired cylindrical interbody cage fit and facetectomy in posterior lumbar interbody fusion in Asian population, 572
posterior, early retropulsion of titanium-threaded cages after, 1073
rhOP-1 for, comparison with allograft and hydroxyapatite, in sheep, 469
intervertebral disc degeneration in, magnetic resonance imaging classification of, 1873
intervertebral discs of, sensory innervation of dorsal portion of, in rats, 946
intraspinal cyst communicating with intervertebral disc in lumbar spine, 2112
juxtafacet cysts in, patient outcome after resection of, 969
laparoscopic anterior lumbar interbody fusion with rhBMP-2, 2751
load sharing between anterior and posterior elements in lumbar motion segment implanted with an artificial disc, E122
load sharing within human lumbar vertebral body using finite element method, E253
lumbar supports for prevention and treatment of low back pain, 377
mechanical response to axial compression load *in vivo*, E403
mechanosensitive afferent units in lumbar posterior longitudinal ligament, 1516
method to study lumbar spine response to axial compression during magnetic resonance imaging, E416
morphological changes in lumbar intervertebral foramen due to flexion-extension, lateral bending, and axial rotation, 876
morphometric study of lumbar spine for operation–workspace specifications, 2472
multifidus electromyography and tension-relaxation recovery after prolonged static lumbar flexion, 715
neuromuscular neutral zones associated with viscoelastic hysteresis during cyclic lumbar flexion, E314
nitric oxide mediation of change of proteoglycan synthesis in intervertebral disc in response to hydrostatic pressure, 134
nomenclature and classification of lumbar disc pathology, E93, 461
pathomechanism of spondylolytic spondylolisthesis in immature primate lumbar spines, E38
pedicle fracture after instrumented posterolateral lumbar fusion, 580
phenotypic inflammation switch in rats shown by calcitonin gene-related peptide immunoreactive dorsal root ganglions innervating lumbar facet joints, 1009
postoperative narcotic requirement after microscopic lumbar discectomy, intraoperative ketorolac or bupivacaine and, 658
prediction of mechanical behaviors at interfaces between bone and two interbody cages of lumbar spine segments, 1437
racial differences in use of lumbar spine radiographs, 1364
radiographic analysis of lordosis in, Centroid, Cobb, TRALL, and Harrison Posterior Tangent methods for, E235
radiographic spinal profile changes induced by cage design after posterior lumbar interbody fusion with wedged implants, E274

range of motion and lordosis of, reliability of measurement and normative values, 53
relative roles of iatrogenic polymorphisms of vitamin D receptor gene in degeneration and bone density in, E7
reliability of lumbar flexion, lumbar extension, and passive straight leg raise test in normal population embedded within complete physical examination, 2714
repeated injury to nerve roots produces enhanced mechanical allodynia and persistent spinal neuroinflammation, 2073
response of flexion-relaxation phenomenon relative to lumbar motion to load and speed, E421
risk of foraminal violation and nerve root impingement after anterior placement of interbody fusion cages, 100
sagittal contour after posterior interbody fusion, threaded devices alone *versus* vertical cages plus posterior instrumentation for, 534
simple bone cyst of lamina of, E531
spondylolisthesis of, global spinal motion in, 282
spondylolysis of, global spinal motion in, 282
spontaneous postoperative cerebrospinal fluid leaks following application of anti-adhesion barrier gel, 748
stenosis of
lumbar canal stenosis caused by hypertrophy of posterior longitudinal ligament, E576
quantitative analysis of transforming growth factor-beta 1 in ligamentum flavum of lumbar spinal stenosis and disc herniation, E492
stimulation of chemosensitive afferents from multifidus muscle does not sensitize muscle spindles to vertebral loads in lumbar spine of catecholamine, 1528
270° fusions compared with 360° fusions, E207
visual analog scales for interpretation of back and leg pain intensity in patients operated for degenerative lumbar spine disorders, 2375
Lumbosacral spine
American Medical Association Guides' lumbar impairment validity checks, 2735
dislocation in, traumatic, 1942
fusion of, early fracture of sacrum or pelvis following multilevel instrumented lumbosacral fusion, E571
geometric parameters of *in vivo* tissues at lumbosacral joint of young Asian adults, 2362
mapping structural properties of lumbosacral vertebral endplates, 883
partial transitional vertebra resection for contralateral facetogenic pain, 226
reliability of lumbar flexion, lumbar extension, and passive straight leg raise test in normal population embedded within complete physical examination, 2714
scoliotic list by lumbar disc herniation, 667
S1 screw bending moment with posterior spinal instrumentation across lumbosacral junction after unilateral iliac crest harvest, 1950
Lung injury, during reconstructive surgery for adult spinal deformities, 387

M

Macrophages, influence of macrophage infiltration of herniated disc tissue on production of matrix metalloproteinases leading to disc resorption, 1522
Magnetic resonance imaging
of acute nontraumatic spinal subdural hematomas, E547
analysis of soft tissue disruption after flexion-distraction injuries of subaxial cervical spine using, 1866
of arachnoid cyst, 2757
axially loaded magnetic resonance imaging of lumbar spine in asymptomatic individuals, 2601
classification of lumbar intervertebral disc degeneration using, 1873
correlation between magnetic resonance imaging and electrophysiological findings in cervical spondylotic myelopathy, E294
correlation between operative outcomes of cervical compression myelopathy and MRI of spinal cord, 1238
diagnostic effect of axial loading during MRI with degenerative disorders, 2607
disc height and curvature responses to axial load from compression device compatible with, 2596
disc height and signal intensity of nucleus pulposus on, as indicators of lumbar disc herniation, 680
dynamic physiologic changes in lumbar CSF volume quantitatively measured by three-dimensional fast spin-echo MRI, 1172
intraoperative, 410
of lumbar canal stenosis caused by hypertrophy of posterior longitudinal ligament, E576
measurement of relaxation and water diffusion in lumbar intervertebral discs under compression *in vitro* using, E437
mechanical response to axial compression load *in vivo*, E403
method to study lumbar spine response to axial compression during, E416
in myelopathy induced by a thoracic intraspinal synovial cyst, E392
postoperative magnetic resonance imaging of lumbar disc herniation, comparison of microendoscopic discectomy and Love's method, 1599
relationship between outcomes of conservative treatment and magnetic resonance imaging findings in mild cervical myelopathy caused by soft disc herniation, 1592
severity of symptoms and signs in relation to findings in sciatica, E149
of thoracolumbar spine, 2637
in vivo changes in neuroforaminal size at flexion-extension and axial rotation of the cervical spine in healthy persons examined using kinematic magnetic resonance imaging, E287
Massage, for low back pain, patient expectations and treatment effects of, 1418
Matrix metalloproteinases, influence of macrophage infiltration of herniated disc tissue on production of matrix metalloproteinases leading to disc resorption, 1522
Mechanical ventilation, for spinal cord injury, S27
Mechanoreceptors, in sacroiliac joint and adjacent tissues, electrophysiologic study of, E468
Meningiomas
en plaque, of cervical spine, unusual appearance of, E87
novel technique for resection of, 1805
recurrent calcified spinal meningioma detected by plain radiograph, E249
spinal-thoracic dumbbell meningioma, 1500
Mental health, relative contribution of mental health and exercise-related pain increment to treadmill test intolerance in patients with chronic low back pain, 2368
Metallosis, intraspinal, causing delayed neurologic symptoms after spinal instrumentation surgery, 1495
Metal reaction, late operative site pain with posterior instrumentation requiring implant removal, infection versus metal reaction as cause of, 583
Metastases
drop metastasis from sinonasal undifferentiated carcinoma, 1486
spinal
effect of spinal radiation before surgical decompression for metastatic spinal cord compression, 818
surgical strategy for, 298
Methylprednisolone
in acute spinal cord injury, S2, S39, S47, S55
for acute traumatic spinal cord injury, questionnaire survey of views of delegates at European CSRS on, E562
early complications of high-dose methylprednisolone sodium succinate treatment in follow-up of acute cervical spinal cord injury, 426
recommendations regarding use in acute spinal cord injury, S56
Moments. *See* Biomechanics
Motor scale, in acute spinal cord injury, S68
Mucopolysaccharidosis, anterior instrumented fusion for thoracolumbar kyphosis in, E539
Multifidus muscle
electromyography and tension-relaxation recovery after prolonged static lumbar flexion, 715
histochemical changes with lumbar disc herniation, 622
long-term effects of specific stabilizing exercises for first-time low back pain, E243
neuromuscular neutral zones associated with viscoelastic hysteresis during cyclic lumbar flexion, E314
stimulation of chemosensitive afferents from multifidus muscle does not sensitize muscle spindles to vertebral loads in lumbar spine of catecholamine, 1528
Muscles
activation of erector spinae and hamstrings during trunk flexion and extension task, 418
active therapy for low back pain and
effects on back muscle activation, fatigability, and strength, 897
effects on paraspinal muscle cross-sectional area, fiber type size, and distribution, 909
self-rated disability and its change following, 920
back muscle fatigability associated with knee extensor inhibition with low back pain, E361
cervical spondylotic amyotrophy with intramedullary cavity formation, E220
development of system for *in vitro* neck muscle force replication in whole cervical spine experiments, 2214
effects of electrical stimulation of sciatic nerve on background electromyography and static stretch reflex activity in trunk muscles in rats, scoliosis development and, 602
extensor, of cervical spine, morphological evaluation by coronal view of magnetic resonance imaging after laminoplasty, 2220
functional subdivision of hip, abdominal, and back muscles during asymmetric lifting, E114
histochemical changes in multifidus muscle with lumbar disc herniation, 622
multifidus electromyography and tension-relaxation recovery after prolonged static lumbar flexion, 715
paraspinal
disc herniation-related back pain impairing feed-forward control of, E367
lumbar, effect of isoflurane versus nicardipine on blood flow of, during controlled hypotension for spinal surgery, 105
paravertebral, ultrastructural changes associated with degenerative spondylolisthesis, 2180
three-dimensional isometric strength of neck muscles, 1904
Muscular dystrophy
immunophenotypic analysis of inflammatory infiltrates in herniated intervertebral discs, 1209

prediction of progression of spinal deformity in Duchenne muscular dystrophy, E223
Myelin inhibition, spinal cord regeneration and, S13
Myelomeningocele, sacral instrumentation to address pelvic obliquity in neuromuscular thoracolumbar scoliosis due to myelomeningocele, E325
Myelopathy
cervical
caused by ossification of posterior longitudinal ligament, long-term results of anterior floating method for, 241
characteristics of velocity-controlled knee movement with cervical compression myelopathy, E535
correlation between magnetic resonance imaging and electrophysiological findings in cervical spondylotic myelopathy, E294
correlation between operative outcomes of cervical compression myelopathy and MRI of spinal cord, 1238
imaging/clinical correlations in, 2411
interobserver and intraobserver reliability of Japanese Orthopaedic Association scoring system for evaluation of cervical compression myelopathy, 1890
laminoplasty *versus* laminectomy and fusion for multilevel cervical myelopathy, 1330
long-term results of double-door laminoplasty for cervical stenotic myelopathy, 479
posterior fusion with wave-shaped rod under local anesthesia for cervical spondylotic myelopathy, 2334
relationship between outcomes of conservative treatment and magnetic resonance imaging findings in mild cervical myelopathy caused by soft disc herniation, 1592
subtotal corpectomy *versus* laminoplasty for multilevel cervical spondylotic myelopathy, 1443
Torg-Pavlov ratio in cervical spondylotic myelopathy, 1760
after valproic acid overdose, E459
induced by a thoracic intraspinal synovial cyst, E392
post-traumatic, with syringomyelia, surgical treatment of, S119
spinal deformity and myelopathy associated with syringomyelia following spinal cord injury, S128
thoracic, staged spinal cord decompression through posterior approach for thoracic myelopathy caused by ossification of posterior longitudinal ligament, 1623

chronic, randomized trial of exercise and spinal manipulation for, 788
conservative treatment for, critical appraisal of review articles on effectiveness of, 196
high quantitative job demands and low coworker support as risk factors for neck pain, 1896
preventive interventions for, 778
6-month prognosis after onset of, endocrine and immunologic parameters indicative of, E24
subjective health measure used on Chinese patients with neck pain in Hong Kong, 1884
among working age adults, multidisciplinary biopsychosocial rehabilitation for, 174
Nerve conduction velocity
chronic effects of nucleus pulposus applied to nerve roots on ectopic firing and conduction velocity, 2661
diclofenac and ketoprofen effects on, in experimental nerve root compression, 2193
effect of anulus fibrosus and nucleus pulposus on nerve root conduction velocity, 1651
selective inhibition of tumor necrosis factor-α prevents nucleus pulposus-induced thrombus formation, intraneural edema, and reduction of nerve conduction velocity, 863
Nerve roots
compression from methylmethacrylate vertebroplasty, E300
entrapment of, pigmented villonodular synovitis of lumbar facet joint as cause of, E213
experimental compression of, diclofenac and ketoprofen effects on nerve conduction velocity in, 2193
repeated injury to lumbar nerve roots produces enhanced mechanical allodynia and persistent spinal neuroinflammation, 2073
Neural mobilization, after spinal surgery, 2647
Neuroforamen, *in vivo* changes in neuroforaminal size at flexion-extension and axial rotation of the cervical spine in healthy persons examined using kinematic magnetic resonance imaging, E287
Neuropathy, femoral, after spinal decompression, iliopsoas hematoma with, diagnostic dilemma presented by, E135
Neuroprotection, spinal cord regeneration and, S13
Neurotomy, radiofrequency medial branch neurotomy in litigant and nonlitigant patients with cervical whiplash, E268
Nicardipine, isoflurane versus, effect on blood flow of lumbar paraspinal muscles during controlled hypotension for spinal surgery, 105
Nicotine, inhibitory effect on posterolateral lumbar fusion, osteogenic protein-1 ability to overcome, 1656
Nitric oxide
immunohistochemical examination and measurement of nitric oxide production in herniation of cervical intervertebral disc, 1110
mediation of change of proteoglycan synthesis in human lumbar intervertebral disc in response to hydrostatic pressure, 134
Nitrous oxide, electrochemical measurement of transport into scoliotic intervertebral discs *in vivo* using nitrous oxide as tracer, 984
Nucleotomy, effect on lumbar spine mechanics in compression and shear loading, 2080
Nucleus pulposus
chronic effects of nucleus pulposus applied to nerve roots on ectopic firing and conduction velocity, 2661
compartment syndrome prevention in dorsal root ganglia caused by exposure to, 870
disc height and signal intensity on magnetic resonance imaging as indicators of lumbar disc herniation, 680
effect on nerve root conduction velocity, 1651
effect on neural activity of dorsal root ganglion, 940
glycosaminoglycan accumulation in primary culture of, in rabbit, 2653
herniation of
lidocaine effects on blood flow and endoneurial fluid pressure in rat model of, 2186
morphologic features of dorsal root ganglia with, 2125
nutrient supply effect on viability of, 2543
selective inhibition of tumor necrosis factor-α prevents nucleus pulposus-induced thrombus formation, intraneural edema, and reduction of nerve conduction velocity, 863
Nutrition
nutrient supply effect on viability of nucleus pulposus cells, 2543
parenteral hyperalimentation for long fusions with spinal deformity, complications and recovery from postoperative malnutrition related to, 809

O

Occipitoaxial angle, in subaxial lesion after occipitocervical fusion, 161
Occupational health/ergonomics
activation of erector spinae and hamstrings during trunk flexion and extension task, 418
back muscle fatigability associated with knee extensor inhibition with low back pain, E361
challenges facing older workers, 1306
disc herniation-related back pain impairing feed-forward control of paraspinal muscles, E367
effect of age on outcomes of tertiary rehabilitation for chronic disabling spinal disorders, 1378
effect of back belt on spine kinematics during asymmetric lifting of large and small boxes, 1794
high quantitative job demands and low coworker support as risk factors for neck pain, 1896
impact of physical function and pain on work status at 1-year follow-up, 800
influences of nonspecific low back pain on three-dimensional lumbar spine kinematics in locomotion, 1910
intramuscular myoelectric activity and selective coactivation of trunk muscles during lateral flexion with and without load, 1465
longitudinal study of development of low back pain in an industrial population, 1370
outcomes of posterolateral lumbar fusion in patients receiving, 738
response of flexion-relaxation phenomenon relative to lumbar motion to load and speed, E421
three-dimensional isometric strength of neck muscles, 1904
in vivo dynamic response of human spine to rapid lateral bend perturbation, effects of preload and step input magnitude, 1457
within-subject variability in low back load in lifting, 1799
Odontoid, fracture of, traumatic atlantoaxial rotatory dislocation with, 830
Odontoid screws, malpositioned, salvage of, 2381
Omental flap, subarachnoid-pleural fistulae management with transdiaphragmatic pedicled greater omental flap, 1809
Opisthotonus, lordosis with marked opisthotonus secondary to dystonia musculorum deformans, 2283
Ossification
of endplates, premature, after inactivation of allele of Col2a1 gene for type 2 collagen, 2558
hypertrophy of posterior longitudinal ligament as prodromal condition to, myelopathy and, 110
of posterior longitudinal ligament
bilateral phrenic nerve palsy as complication of anterior decompression and fusion for, E281
cervical myelopathy caused by, long-term results of anterior floating method for, 241
hypertrophy of posterior longitudinal ligament as prodromal condition to, myelopathy and, 110
identification on preoperative computed tomographic examinations of cervical spine, 182

quality of life in elderly patients with, 494
staged spinal cord decompression through posterior approach for thoracic myelopathy caused by, 1623
in vitamin D-resistant rickets, 590
Osteochondroma, of thoracic spine, scoliosis and, 1082
Osteogenesis imperfecta, spondylolisthesis in, due to pedicle elongation, E506
Osteogenic protein-1
as graft substitute for intertransverse process lumbar fusion, 127
nicotine's inhibitory effect on posterolateral lumbar fusion and, 1656
Osteoid, with toxoplasmic arachnoiditis, 1726
Osteomyelitis
Bacteroides fragilis vertebral osteomyelitis secondary to anal dilatation, E377
cervical, multilevel, Zenker's diverticulum associated with, E193
contained rupture of aneurysm of common iliac artery associated with pyogenic vertebral spondylitis, E303
pneumococcal vertebral osteomyelitis, 2397
secondary to epidural catheter use, 1492
tuberculous, in Saudi Arabia, E565
Osteopenia, idiopathic scoliosis in, E19

computer-assisted thoracic placement of, *in vitro* feasibility study of, 360
computer navigation of parapedicular screw fixation in thoracic spine, E496
hydroxyapatite coating to improve bone-screw interface, 2673
new method for detecting pedicular wall perforation during pedicle screw insertion, 1477
safety of thoracic pedicle screw fixation in spinal deformities, 2049
short-segment, of thoracolumbar burst fractures, transpedicular intracorporeal grafting to prevent early failure, 213
surgical treatment of adjacent instability after lumbar spine fusion, E519
thoracolumbar, evoked EMG for detecting misplaced screws, 1313
triggered electromyographic threshold for accuracy of thoracic pedicle screw placement in porcine model, 2485
in vivo accuracy of, 2340
Pelvis
dynamic sagittal imbalance of spine in degenerative flat back, significance of pelvic tilt in surgical treatment, 2029
early fracture of, following multilevel instrumented lumbosacral fusion, E571
extension of fusions to pelvis in idiopathic scoliosis, 166
hydatid cyst of, primary, sciatica and foot drop with, 230
morphometry of supra sciatic notch intrailiac implant anchor passage, E143
pain in, reliability and validity of active straight leg raise test in posterior pelvic pain since pregnancy, 1167
sacral instrumentation to address pelvic obliquity in neuromuscular thoracolumbar scoliosis due to myelomeningocele, E325
scoliosis and severe pelvic obliquity in cerebral palsy, 2168
pH, effect on viability of nucleus pulposus cells, 2543
Phrenic nerve, bilateral phrenic nerve palsy as complication of anterior decompression and fusion for cervical ossification of posterior longitudinal ligament, E281
Physical therapy
for lumbar spine degeneration, fusion *versus*, 2521
neural mobilization after spinal surgery, 2647
Pigmented villonodular synovitis, of lumbar facet joint, as cause of nerve root entrapment, E213
Pinealectomy
correlation between age at pinealectomy and development of scoliosis in chickens, 1014
critical stage of, scoliosis development and, 237
pathologic mechanism of experimental scoliosis in pinealectomized chickens, E385
pineal transplantation after pinealectomy in young chickens, effect on development of scoliosis, 1022
Plate fixation
biomechanical evaluation of load sharing and stiffness in dynamic cervical plates, 1324
cervical, comparison of modern anterior and posterior plate fixation, 15
Pneumococcal osteomyelitis, 2397
Pneumothorax, tension pneumothorax as complication of video-assisted thoracoscopic surgery for anterior correction of idiopathic scoliosis, 448
Posture
complications and results of long adult deformity fusions down to L4, L5, and sacrum, E182

impaired postural control of lumbar spine associated with delayed muscle response times with chronic idiopathic low back pain, 724
postural hygiene program to prevent low back pain, 1280
Pott's disease, in Saudi Arabia, E565
Pregnancy
reliability and validity of active straight leg raise test in posterior pelvic pain since, 1167
surgery for lumbar disc herniation during, 440
Presidential address, Surgeons, Societies, and Companies: Ethics and Legalities, 1947
Prognostic factors
clinical and demographic prognostic indicators for disc cell proliferation *in vitro*, 2323
6-month prognosis after onset of, endocrine and immunologic parameters indicative of, E24
smoking as predictor of negative outcome in lumbar spinal fusion, 2623
Prostheses
cervical, E90
reconstruction using custom-made prosthesis after sacrectomy for osteosarcoma, 431
Proteoglycans
mechanisms of age-related decline in insulin-like growth factor-I dependent proteoglycan synthesis in cells of, in rat, 2421
nitric oxide mediation of change of proteoglycan synthesis in human lumbar intervertebral disc in response to hydrostatic pressure, 134
Proteus syndrome, scoliosis in, E395

Q

Quadriplegia, resolution of spontaneous spinal epidural hematoma without surgery, E525
Quality of life
assessment of back-related quality of life, 857
in elderly patients with ossification of posterior longitudinal ligament, 494
health-related quality of life and somatization with long-term low back pain, 2271

R

Race, racial differences in use of lumbar spine radiographs, 1364
Radiation therapy, effect of spinal radiation before surgical decompression for metastatic spinal cord compression, 818
Radiofrequency denervation, of facet joints, in treatment of low back pain, 1411
Radiofrequency medial branch neurotomy, in litigant and nonlitigant patients with cervical whiplash, E268
Range of motion
of lumbar spine, reliability of measurement and normative values, 53
range of motion discriminates between asymptomatic persons and those with whiplash, 2090
Recurrent laryngeal nerve, injury with anterior cervical spine surgery, risk with laterality of surgical approach, 1337
Regeneration, of spinal cord, S13
Rehabilitation
biopsychosocial, multidisciplinary, for neck and shoulder pain among working age adults, 174
characteristics of velocity-controlled knee movement with cervical compression myelopathy, E535
effect of age on outcomes of tertiary rehabilitation for chronic disabling spinal disorders, 1378
long-term effects of specific stabilizing exercises for first-time low back pain, E243
recruitment and early treatment in multicenter study of acute spinal cord injury, S58
after spinal cord injury, S137
validation of Turkish version of Roland-Morris Disability Questionnaire for use in, 2738
Respiratory disorders, acute respiratory compromise associated with flexed cervical traction after C2 fractures, E50
Rheumatoid arthritis, traction to correct severe cervical deformity in, 1076
rhOP-1, for lumbar interbody fusion, comparison with allograft and hydroxyapatite, in sheep, 469
Rickets, vitamin D-resistant, ossification of posterior longitudinal ligament in, 590
Roland Disability Questionnaire, responsiveness in low back pain, 71

S

Sacral spine
clinical outcome of trans-sacral interbody fusion after partial reduction for high-grade L5-S1 spondylolisthesis, 2227
cyst-subarachnoid shunt for sacral cyst, 451
giant intrasacral cellular schwannoma treated with high sacral amputation, E216
pyogenic spondylitis in S1-S2 immobile segment, 588
radiculopathy of, secondary to multicentric osteosarcoma, 1729
sacral instrumentation to address pelvic obliquity in neuromuscular thoracolumbar scoliosis due to myelomeningocele, E325
Sacrectomy, for osteosarcoma, reconstruction using custom-made prosthesis after, 431
Sacroiliac joint, mechanoreceptors in, electrophysiologic study of, E468
Sacroiliitis, intractable, in spondyloarthropathy, arthrodesis for, 2297
Sacrum, early fracture of, following multilevel instrumented lumbosacral fusion, E571
Safety, of evidence-based guidelines for low back pain management in primary care, 2615
Sagittal plane deformity, transpedicular wedge resection osteotomy for management of, 2036
Sarcomas
synovial, monophasic, intraneural, 310
transoral resection and reconstruction for primary osteogenic sarcoma of second cervical vertebra, 1936
Schwann cells, immunohistochemical detection in innervated and vascularized intervertebral discs, 2550
Schwannomas, giant intrasacral cellular schwannoma treated with high sacral amputation, E216
Sciatica
cost effectiveness of periradicular infiltration for, 2587
with primary pelvic hydatid cyst, 230
selective inhibition of tumor necrosis factor-α prevents nucleus pulposus-induced thrombus formation, intraneural edema, and reduction of nerve conduction velocity, 863
severity of symptoms and signs in relation to magnetic resonance imaging findings in, E149
surgical and nonsurgical management of sciatica secondary to lumbar disc herniation, 1187
Sciatic nerve
electrical stimulation of, effects on background electromyography and static stretch reflex activity in trunk muscles in rats, scoliosis development and, 602
primary sensory neurons with dichotomizing axons projecting to the facet joint and the sciatic nerve in rats, 1105
Sciatic notch, morphometry of supra sciatic notch intrailiac implant anchor passage, E143
Scoliosis
biomechanical evaluation of anterior spinal instrumentation systems for scoliosis, *in vitro* fatigue simulation and, 2701
congenital, transpedicular eggshell osteotomies for, using frameless stereotactic guidance, 2289
correlation between age at pinealectomy and development of scoliosis in chickens, 1014
in cri-du-chat syndrome, 835
development after pinealectomy, critical stage of, 237
effect of pineal transplantation after pinealectomy in young chickens on development of, 1022
effects of electrical stimulation of sciatic nerve on background electromyography and static stretch reflex activity in trunk muscles in rats, scoliosis development and, 602
electrochemical measurement of transport into scoliotic intervertebral discs *in vivo* using nitrous oxide as tracer, 984
elevated synthetic activity in convex side of scoliotic intervertebral discs and endplates compared with normal tissues, E198
estimation of spinal deformity in scoliosis from torso surface cross sections, 1583
evaluation of evoked potential techniques for spinal cord monitoring during scoliosis surgery, 1772
hemivertebra in monozygotic twins, 1389
idiopathic
ε-aminocaproic acid effect on perioperative blood loss in patients with idiopathic scoliosis undergoing posterior spinal fusion, 1147
assessment by Quantic Spinal Image System, functional classification with, 1274
changes in surface and radiographic deformity after universal spine system for right thoracic scoliosis, 1778
changing curve pattern in infantile scoliosis, E373
childbearing, curve progression, and sexual function in women 22 years after treatment for, 1449
complications and results of long adult deformity fusions down to L4, L5, and sacrum, E182
dynamic functional evaluation of gait and spinal balance following spinal fusion in, E330
effectiveness of bracing in male patients with, 2001
effect of brace treatment on incidence of surgery, 42
extension of fusions to pelvis in idiopathic scoliosis, 166
factors influencing outcome in bracing large curves in patients with, 2354
geometric torsion in, 2235
multisurgeon assessment of surgical decision-making in, 2347
nighttime bracing with Providence brace in adolescent girls with, 2006
osteopenia in, E19
patient outcomes after Harrington instrumentation for, 1268
physical and psychological characteristics related to patient satisfaction with cosmetic result of surgery and, 2119

postoperative pain control using epidural catheters after anterior spinal fusion for, 1290
progression of vertebral and spinal three-dimensional deformities in, 2244
prospective comparison of flexibility radiographs in, E74
radiographic and clinical outcomes and complications of single solid rod instrumented anterior spinal fusion in adolescent idiopathic scoliosis, 1956
radiologic findings and curve progression 22 years after treatment for, brace and surgical treatment compared, 516
spontaneous proximal thoracic curve correction after isolated fusion of main thoracic curve in adolescent idiopathic scoliosis, 1966
subtransverse process wiring for, 2392
tension pneumothorax as complication of video-assisted thoracoscopic surgery for anterior correction of, 448
three-dimensional reconstruction of, 2719
transverse apex coinciding with coronal apex levels in, 1143
lumbosacral scoliotic list by lumbar disc herniation, 667
neuromuscular
intervertebral disc composition in, 610
posterior-only unit rod instrumentation and fusion for, 1984
one-stage posterior hemivertebra resection and correction using segmental posterior instrumentation, 752
pathologic mechanism of experimental scoliosis in pinealectomized chickens, E385
pathophysiology of, 100
patient foramen ovale and brain microembolization during surgery for, 1719
in patients with diastrophic dysplasia, 1689
in Proteus syndrome, E395
severe pelvic obliquity and, in cerebral palsy, 2168
in Stickler syndrome, 403
surface topography, Cobb angles, and cosmetic change in, E55
of thoracic spine, osteochondroma and, 1082
visual deficiency and, 48
Screw fixation. *See also* Pedicle screws
anterior cervical corpectomy and fusion using miniplate and screws in 4-year-old child with eosinophilic granuloma of cervical spine, 1193
augmentation of anterior vertebral body screw fixation by injectable, biodegradable calcium phosphate bone substitute, 2679
biomechanical evaluation of anterior spinal instrumentation systems for scoliosis, *in vitro* fatigue simulation and, 2701
comparison of three screw types for unicortical fixation in lateral mass of cervical spine, 2427
hydroxyapatite coating to improve bone-screw interface, 2673
oral extrusion of screw after anterior cervical spine plating, 1814
posterior C1-C2 fusion with polyaxial screw and rod fixation, 2467
sacropelvic fixation and L5-S1 fusion using S1 and lilac screws, 1976
three-dimensional computed tomography-based personalized drill guide for posterior cervical stabilization at C1-C2, 1343
transarticular, for atlanto-occipital dislocation, 703
transpedicular screw placement, image-guided *versus* lateral-view fluoroscopy for, *in vitro* simulation of, 2160
Sensory neurons
primary sensory neurons with dichotomizing axons projecting to the facet joint and the sciatic nerve in rats, 1105
stimulation of chemosensitive afferents from multifidus muscle does not sensitize muscle spindles to vertebral loads in lumbar spine of catecholamine, 1528
Sensory scale, in acute spinal cord injury, S68
Sexual function
after spinal cord injury, S129, S161
in women 22 years after treatment for idiopathic scoliosis, 1449
Shock, in spinal cord injury, S27
Shoulder pain
6-month prognosis after onset of, endocrine and immunologic parameters indicative of, E24
among working age adults, multidisciplinary biopsychosocial rehabilitation for, 174
Shunts, cyst-subarachnoid shunt for sacral cyst, 451
Smoking, as predictor of negative outcome in lumbar spinal fusion, 2623
Soft tissue
magnetic resonance imaging analysis of soft tissue disruption after flexion-distraction injuries of subaxial cervical spine, 1866
in vitro genesis of subaxial cervical unilateral facet dislocation through sequential soft tissue ablation, 1317
Spasticity, after spinal cord injury, mechanisms and treatment of, S146
Spinal balance, dynamic functional evaluation of gait and spinal balance following spinal fusion in idiopathic scoliosis, E330
Spinal canal, string test measurement to assess effect of spinal deformity correction on spinal canal length, 2013
Spinal cord
cervical, abnormalities of, imaging/clinical correlations in, 2411
compression of
acute nontraumatic spinal subdural hematomas and, E547
from methylmethacrylate vertebroplasty, E300
herniation of, in thoracic spine, idiopathic, association with intervertebral discs extrusion, 1090
regeneration of, S13
thoracic, herniation of, E488
Spinal cord injury
acute
epidemiology, demographics, and pathophysiology of, S2
measurement and recovery patterns in multicenter study of, S68
methylprednisolone for, questionnaire survey of views of delegates at European CSRS on, E562
methylprednisolone in, S2, S39, S47, S55
mobilization of patients after surgery for, 2278
nonoperative management of, S31
recommendations regarding methylprednisolone use in, S56
recruitment and early treatment in multicenter study of, S58
role and timing of decompression in, S101
Sygen multicenter study of, S587, S599
acute decompression and restoration of spinal alignment in prevention of posttraumatic syringomyelia, E399
bladder function following, S129, S161
cervical
neurologic deterioration after, cause of, 340
stab wound injury, 444
chronic long-term sequelae after, spinal deformity and myelopathy associated with syringomyelia, S128
critical care of, S27
early complications of high-dose methylprednisolone sodium succinate treatment in follow-up of acute cervical spinal cord injury, 426
functional recovery and regeneration of descending tracts in rats after spinal cord transection in infancy, 1215
maximizing functional outcomes after, S137
pain after, mechanisms and treatment of, S146
pain following, S161
penetrating injury and, diabetes insipidus secondary to, E510
private funders' changing role in research on, S24
prognosis of, establishing, S137
repair of injured spinal cord, S23
sexual function following, S129, S161
significance of thoracolumbar spinal canal size in spinal cord injury patients, 371
spasticity after, mechanisms and treatment of, S146
traumatic atlantoaxial dislocation injury, 454
Spinal fusion. *See also specific regions of spine*
bone morphogenetic protein carriers for, 850, 933
extension of fusions to pelvis in idiopathic scoliosis, 166
interbody. *See* Fusion cages; Interbody fusion
neural mobilization after spinal surgery, 2647
occipitoaxial angle in subaxial lesion after occipitocervical fusion, 161
parenteral hyperalimentation for long fusions with spinal deformity, complications and recovery from postoperative malnutrition related to, 809
posterior, ε-aminocaproic acid effect on perioperative blood loss in patients with idiopathic scoliosis undergoing, 1147 posterior-only unit rod instrumentation and fusion for neuromuscular scoliosis, 1984
postoperative pain control using epidural catheters after anterior spinal fusion for adolescent scoliosis, 1290
preoperative gait comparisons between adults undergoing long spinal deformity fusion surgery and controls, 2020
radiographic and clinical outcomes and complications of single solid rod instrumented anterior spinal fusion in adolescent idiopathic scoliosis, 1956
Spinal injury, deformity following, S111
Spinal instrumentation. *See also specific types of instrumetation*
anterior instrumented fusion for thoracolumbar kyphosis in mucopolysaccharidosis, E539
anterior *versus* posterior instrumentation for correction of thoracic idiopathic stenosis, 1095
changes in surface and radiographic deformity after universal spine system for right thoracic idiopathic scoliosis, 1778
early-phase enhanced inflammatory reaction after spinal instrumentation surgery, 2698
finite element investigation of upper cervical instrumentation, 2449
hook pattern and kyphotic angulation effects on mechanical strength and apical rod strain in long-segment posterior construct using synthetic model, 627
intraspinal metallosis causing delayed neurologic symptoms after, 1495
late operative site pain with posterior instrumentation requiring implant removal, infection versus metal reaction as cause of, 583
late results of thoracolumbar fractures after posterior instrumentation and transpedicular bone grafting, 88
lumbar sagittal contour after posterior interbody fusion, threaded devices alone *versus* vertical cages plus posterior instrumentation for, 534
morphometry of supra sciatic notch intrailiac implant anchor passage, E143
new anterior cervical instrumentation system combining intradiscal cage with integrated plate, 1188
notch sensitivity of titanium alloy, commercially pure titanium, and stainless steel spinal implants, 1668
patient outcomes after Harrington instrumentation for idiopathic scoliosis, 1268
posterior-only unit rod instrumentation and fusion for neuromuscular scoliosis, 1984

radiographic and clinical outcomes and complications of single solid rod instrumented anterior spinal fusion in adolescent idiopathic scoliosis, 1956
S1 screw bending moment with posterior spinal instrumentation across lumbosacral junction after unilateral iliac crest harvest, 1950
vacuum-assisted wound closure for wounds with exposed hardware, E30
Spinal manipulation
for chronic neck pain, randomized trial of, 788
effective forces transmitted by high-speed, low-amplitude thoracic manipulation, 2105
electromyographic reflex responses to mechanical force, manually assisted spinal manipulative therapy, 1117
Spinal stenosis. *See specific regions of spine*
Spondylitis

Traction, to correct severe cervical deformity in rheumatoid arthritis, 1076
TRALL method, for analysis of lumbar lordosis, E235
Transforming growth factor, quantitative analysis of transforming growth factor-beta 1 in ligamentum flavum of lumbar spinal stenosis and disc herniation, E492
Transfusion therapy, for reconstructive spinal repair in von Willebrand's disease, E552
Transverse ligament, of atlas, fibrocartilage in, 1765
Treadmill test, relative contribution of mental health and exercise-related pain increment to treadmill test intolerance in patients with chronic low back pain, 2368
Tuberculous spondylitis, in Saudi Arabia, E565
Tumoral calcinosis, 1673
Tumor necrosis factor, selective inhibition of tumor necrosis factor-α prevents nucleus pulposus-induced thrombus formation, intraneural edema, and reduction of nerve conduction velocity, 863 Tumors. *See also specific tumors*
of thoracic cord, combined laminectomy and thorascopic resection of dumbbell-type, E130

U

Ultrasound, diagnostic performance of vertebral displacement measurements derived from ultrasonic indentation in *in vivo* model of degenerative disc disease, 1348

V

Valproic acid, cervical flexion myelopathy after overdose of, E459
Vasculature, anatomy anterior to L5-S1 disc space, 1205
Vertebral arteries
dissection of, masking by severe trauma to cervical spine, 314
extracranial, fenestration of, E139
Vertebretectomy, tandem interbody fusion grafting after cervical vertebretectomy, 1287
Vertebroplasty
effect of cement volume on mechanical behavior, 1537
ex vivo biomechanical evaluation of hydroxyapatite cement for use with, 1542
methylmethacrylate, root and spinal cord compression from, E300
for painful osteoporotic compression fractures, 1511
Video-assisted surgery, tension pneumothorax as complication of video-assisted thorascopic surgery for anterior correction of idiopathic scoliosis, 448
Virtual fluoroscopy, 347
Visual analog scales, visual analog scales for interpretation of back and leg pain intensity in patients operated for degenerative lumbar spine disorders, 2375
Visual deficiency, scoliosis and, 48
Vitamin D receptor gene, iatrogenic polymorphisms of, relative roles in lumbar spine degeneration and bone density, E7
von Willebrand's disease, transfusion medicine management for reconstructive spinal repair in, E552

W

Whiplash injury
determination with conventional spine imaging and cryomicrotomy, 2443
efficacy of conservative treatment for, E64
facets of, 2063
headache, neurologic pain, and neck mobility after, 1246
head restraint properties and response to rear-end impacts, 2432
kinematic factors influencing pain patterns in, 1252
mechanical evidence of cervical facet capsule injury during, 2095
prognostic value of Quebec Classification of whiplash-associated disorders, 36
radiofrequency medial branch neurotomy in litigant and nonlitigant patients with, E268
range of motion discriminates between asymptomatic persons and those with whiplash, 2090
Symptom Checklist 90 profiles with chronic pain from whiplash and with other musculoskeletal injuries compared, 766
systematic review of prognosis of acute whiplash and new conceptual framework to synthesize literature, E445
Workers' compensation, outcomes of posterolateral lumbar fusion in patients receiving, 738
Work load, association between physical workload and low back pain clouded by the "healthy worker" effect, 1788

X

Xanthogranuloma, juvenile, cervical, isolated, 1392

Z

Zenker's diverticulum, associated with multilevel cervical osteomyelitis, E193
